

This is amazing!

Hello,

With all of the negativity flying about, the mud-slinging, and the legal manoeuvring, it's hard sometimes to stay positive. On that note, I wanted to reach out and commend all of those involved on a job well done. This vision, this opportunity, this direction is exactly what our community needs. While the old EM is and will always be near and dear to us, it was a second home to many, needs change and we must adapt. I am thrilled and hopeful! You have my support, 100%.

Just a little thank you from me.

Tarmo Remmel
